Zoom Class Instructions

We use Zoom for this online class. The app is free and there is no need to register for a Zoom account.

Install the Zoom app before the class. Click on the Zoom class link you received to install the app when prompted. Use the same link to access the class on October 14.

We recommend that you use the Zoom app on a different computer or device than your iPhone. This will allow you to explore class topics with your iPhone during the class.

Questions? More information is found on our online class page at:
