# Today's Class Focus

---

- iOS Updates – 14 & 15
- What's New
  - Home Screen Customization
    - Jiggle Mode
    - Organize your Home Screen
    - App Library
    - Widgets
  - Magnifier
  - Compact Screens for Phone calls & Siri
  - Privacy Changes
  - New Texting Functions
  - Translate App

# What is IOS?

Mobile operating system created by Apple exclusively for its hardware.

The software that runs your device.

Includes the Apple built-in apps like Mail, Messages, Phone, Camera & Notes

# IOS – Upgraded Regularly

---

Last two major updates:

- IOS 14 September 2020
- IOS 15 September 2021

Latest Update IOS 15.1

Other Updates and Patches during the years.

- e.g. 15.1
- New Functions
- Bug fixes
- Security fixes
- Not unusual to see a Patch Version shortly after a Major or Minor release

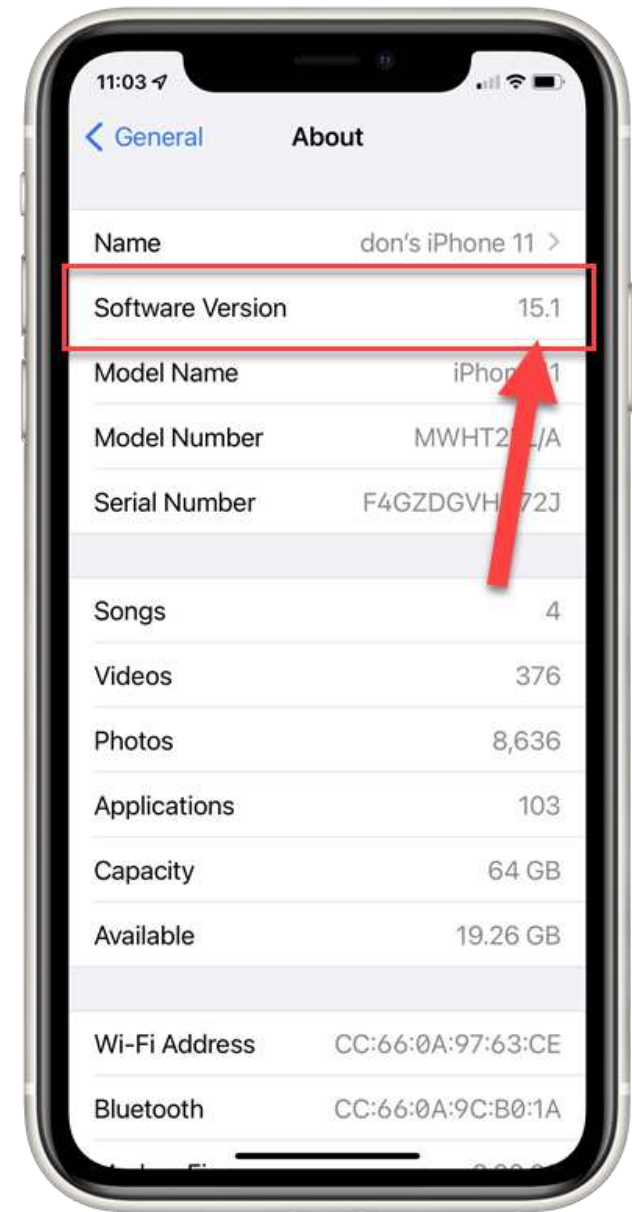

# What Version of IOS am I using?

---

Settings App>General>About

Settings App>General>Software Update

# Can I Update IOS Forever?

---

# NO

For example, IOS 15 is for iPhone 6s and later

- Most models are updatable 5 to 6 years

# Why Do I Care?

---

New Releases Fix Bug and Security Issues

It keeps your device current & adds life

New Releases Bring New Capabilities

# The Best of What's New with IOS 14+

# Home Screen Customization

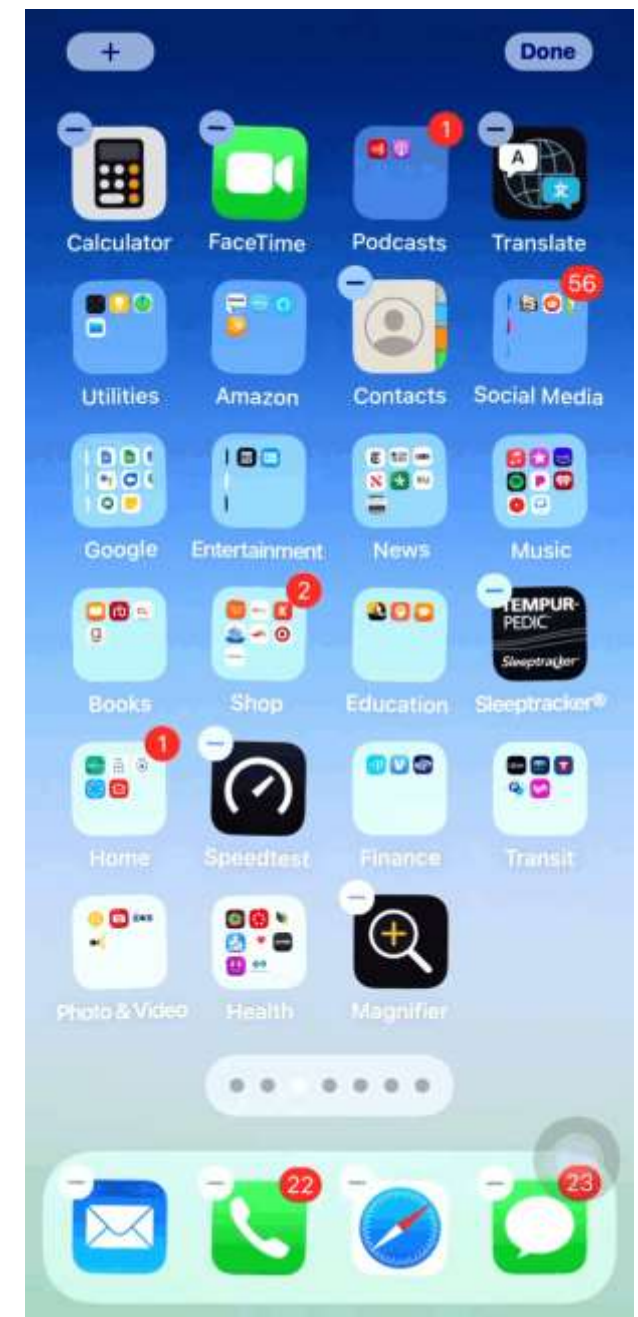

---

# The One Mandatory Skill

For everything we want to change on your Home Screen.

You will need to put your device into:

## Jiggle Mode

# Old vs New

Long Press  
directly on App  
icon.

Multiple  
Options

New for IOS 14

Long Press on a  
blank part of  
the screen

Goes directly in  
design mode

# What can you Do with Jiggle/Design Mode

1. Remove Icons & Delete Apps
2. Move/drag icons to new location or different screen.
  - Change icons in the Dock
3. Create Folders by dropping one icon on top of another
4. Add a widget – tap + (upper left) widget
5. Hide a Home Screen

# But First... Some Definitions

- Today View
- Widget
- Smart Stack
- App Library

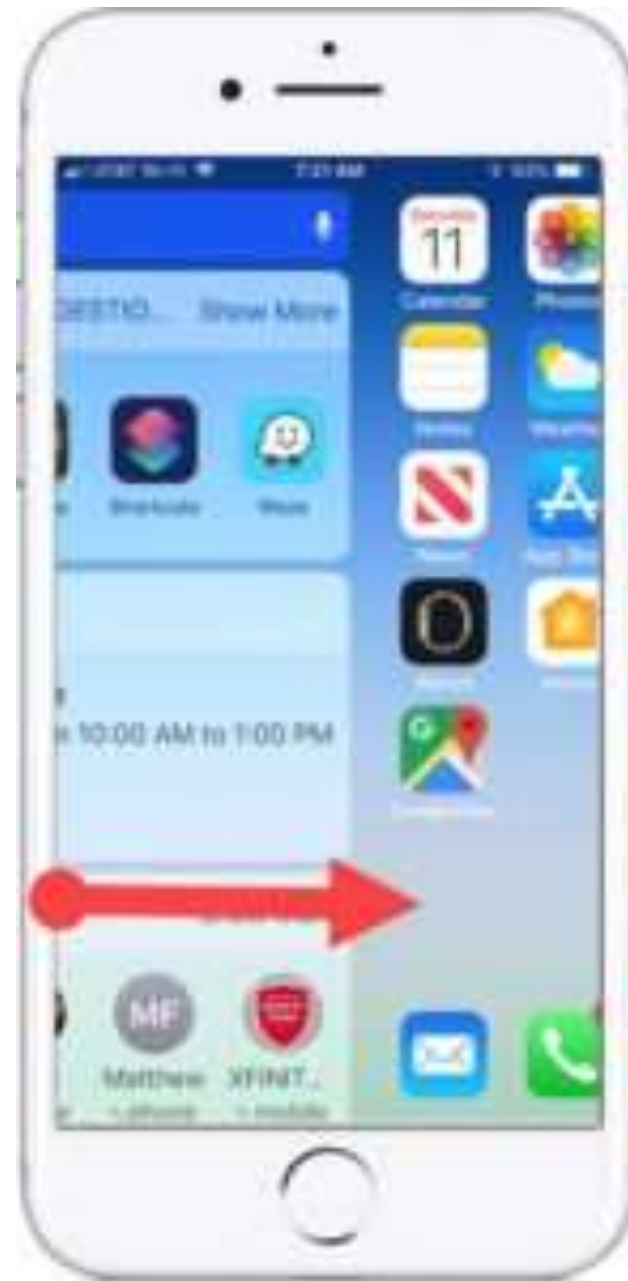

# Today View

**Today View** is a screen of information accessed from your Home screen that gives you a glimpse of your day and access to the things you do most often.

The daily glimpse might include your schedule, recent messages, weather, news headlines and more.

Swipe Right from your first Home Screen

Can be displayed on a locked iPhone

# Widgets

**Widgets** show you information and provide access to your favorite apps.

Use Widgets on any Home Screen to provide a snapshot of activities, news headlines, weather and more.

Widgets were previously available on the Today View.

Tap a Widget to access the underlying app.  
Eliminates need for an app icon.

# Smart Stack

A widget called a **Smart Stack** (one that has dots next to it) is a set or “stack” of multiple widgets

You can add a Smart Stack to the Home Screen, then swipe through it to see the widgets it contains.

More widgets in less space!

# App Library

The **App Library** is a catalog of your apps.

Found at the end of your Home Screen pages.

- **Swipe left to access**

Organizes all **apps** into one simple, easy-to-navigate view.

Cannot currently be reorganized. Still have folders on Home screen.

Search Bar – tap on the search bar to get an alphabetic list of apps.

1. An app doesn't require an icon on a Home screen.
2. Removing an app from the app library deletes the app from your device.

# Design Actions

---

Move an app icon

Delete an icon or an app

Add a widget

Add a Smart Stack

Hide a Home Screen

# Delete Icons from Home Screen

---

Jiggle Mode

Tap – (minus) on upper left of app icon.

Delete App – removes app and data

Move to App Library – leaves app on device but icon is in the App Library

An app that you don't use very often doesn't need an icon on your Home screen

# Add a Widget to the Home Screen

---

Jiggle Mode

Tap + (plus) add on upper left.

Browse or Search to find a widget.

Tap the desired Widget

Choose desired size and element (dots below display)

- Swipe left or right.

Tap **Add Widget** to place on Home Screen

Tap Done to leave Jiggle mode

# Working with Widgets

---

## Delete or Move a Widget

- Jiggle Mode
- Tap - add on upper left to delete
- Drag to Move

## Edit a Widget ( only a few offer edit)

- Long Press on the Widget

# Add a Smart Stack to the Home Screen

---

## Jiggle Mode

- Tap + (plus) add on upper left.
- Choose Smart Stack
- Swipe to Choose Size
- Add Widget

An assortment of widgets are selected for your Smart Stack

# Edit a Smart Stack

---

## Long Press on Widget

- Choose Edit Stack
- Reorder by dragging grid icon up or down
- Turn on Smart Rotate (device shows relevant widgets throughout the day)
- Delete a widget by Swiping Left – Tap Delete

## Add another Widget

- Add new widget to Home Screen
- Jiggle Mode
- Drag new widget to Smart Stack

# Hide a Home Screen

---

With Widgets, Smart Stacks, Folder and that an app doesn't require an icon on a Home screen...

How many Home Screens do you need?

## Jiggle Mode

- Taps Dots of bottom of Home Screen
- Uncheck Home Screens you wish to Hide
- Tap Done

# Home Screen Design Principles

---

1. Most Frequently Used Apps in the Dock
2. Place 1 or 2 key Widgets or Smart Stack on Home Screen #1.
  - It might be the time, the weather, calendar, to-do or even sports scores or stock market information. Your choice is not permanent. You may try several over time.
3. Place Several Informative Widgets on Today View
  - Battery
4. Fill Home Screen 1 with other frequently used apps
5. Apps that you don't use very often:
  - Organize into folders
  - Move to later Home Screen
  - Consider whether you require a Home Screen icon

# IOS 14.5 Privacy Change

---

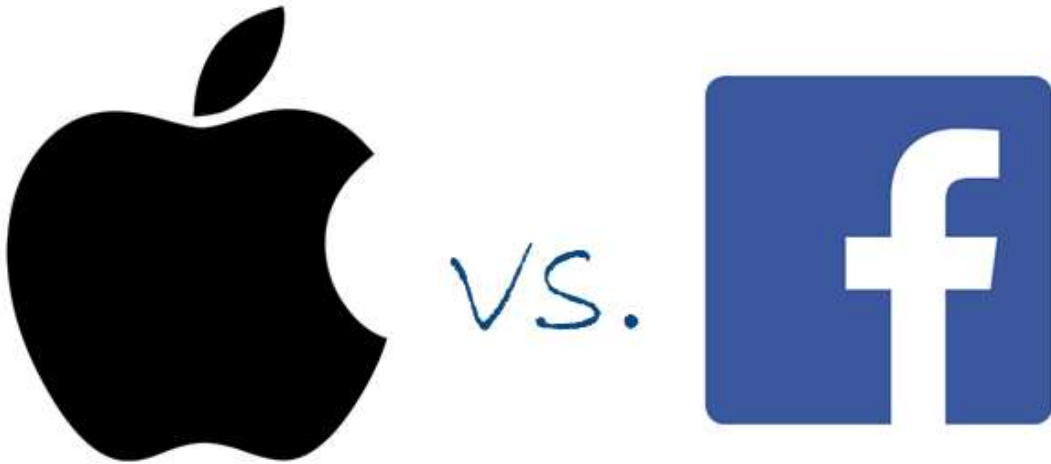

## Apple's Position on Privacy

# IOS 14.5 Privacy Change

---

Good Change for Apple Users

Apple vs Most Social Media platforms including Facebook, YouTube, SnapChat, Twitter and more.

# Social Media Personalized Advertising

---

The image shows a Facebook advertisement for Total Wine & More. At the top left is the Total Wine & More logo, a green circle with the text "Total Wine & More" and a blue checkmark. To the right of the logo is the text "Total Wine & More" and "Sponsored" with a gear icon. Below this is the text "These highly-rated wines under \$20 are hand-picked for you. Taste for yourself why critics love these!". The main visual is a large green circle containing the text "HIGHLY RATED WINES" in white, serif, all-caps font. Below the circle are several wine bottles of different colors and shapes. To the right of the bottles is a red circle containing the text "Save up to \$40" in white, bold, sans-serif font.

# Apple's Position

If an app is going to track your activity, you (the users) need to give the app permission to track

App Tracking Transparency (ATT)

Released in IOS 14.5

# This has been impactful

---

 The Verge

**Apple's app tracking policy reportedly cost social media platforms nearly \$10 billion**

An investigation by The Financial Times found that Snapchat, Facebook, Twitter, and YouTube lost around \$9.85 billion in revenue following...

2 days ago

# Two ATT Topics/Questions

---

1. How do you see this?
2. How to your change it, particularly if you responded and hadn't understood it?

# How do you see?

# Your Choices

---

1. Don't Allow (Ask App Not to Track)
2. Allow

# How Do You Change this Setting?

---

Settings App

Tap Privacy>Tracking

Green is On (Yes to Tracking)

# Translate

---

Translate Text or Voice – Portrait

Translate Conversation - Landscape

# Translate

Translate Text or Voice – Portrait

## 1. Pick Languages

## 2. What to Translate

- Type Text
- Speak Text - Microphone

## 3. Translation

- Read
- Play Audio
- Save - Favorites

# Translate

---

Some Languages can be downloaded to the phone

1. Tap Language
2. Scroll Down to find Downloadable Languages

# Use the iPhone Magnifier to Read the Fine Print

---

Magnifier now has App Status

# Use the iPhone Magnifier to Read the Fine Print

---

## Two Essential Controls

Zoom -Slider

Freeze – Shutter button

# Messages

---

- Pin Frequent Conversation
- Group Conversations
- Emoji Search

# Pin Frequent Conversation

---

- To Pin:
  - Swipe right on a conversation
  - Tap pin

- To Unpin
  - Long Press on Pin
  - Select Unpin

○

# Emoji Search

---

Tap Emoji icon at bottom of keyboard

Instead of swiping through pages of emojis

Use Search Emoji Bar

# Compact Interface

---

Incoming Phone Calls

Siri

# Compact Call Interface

# Old Siri Interface

# New Siri Interface
